April 2016

Fun with Dirt is a topic that can be very beneficial for young learners in so many different ways. This monthly exploration is all about thinking by doing, investigating through science experiments and extends to awesome art projects. Without a doubt, "Fun with Dirt" requires plenty of sensory exploration and it directly connects us with nature, the most primal element of our world. In addition, this themed unit provides time to play with peers cooperating, communicating, negotiating and sharing. Dirt is an open-ended material that meets the diverse needs and interests of all the children. A younger child might dive right into the sensory experience while older students are busy making their own structure and analyzing the components of dirt. In conclusion, with dirt there is an opportunity for everyone!

This School year is coming to an end and we are very excited preparing and organizing our Graduation/ End of the Year Show! The teachers already started rehearsing with the children for this wonderful event that is scheduled for Friday, **June 10th 2016 .Save the date!**

Summer is around the corner! And we are happy to bring "**The Factory of Fun**". An amazing summer camp where children ages 1 to 12 years old will discover, explore and enjoy thru different fun experiences!

Remember to save your spot before April 30th 2016.

Preschoolers continue with their regular schedules during the summer months in a specially designed summer camp for them.

On April we will be talking about:

- ✓ Topic of the month: "**Fun with Dirt**"
- ✓ Artist of the month: "**Georges Seurat**"
- ✓ Country of the month: "**France**"
