"Creating a Culture of Thinking"

October 2017

. **Topic of the month:** Creativity and Innovation

This new topic will guide our students through the exploration of this new theme, allowing us to reinforce their creative thinking, and motivate them to create new ways to innovate in order to change reality. The main objective is to recognize paradigms that have impacted our way to seeing, understanding and experiencing the world.

. **Artist of the month:** Miro

. **Country of the month:** India

Mimi's Class)

October 12th No VPK Session

October 19th Read for the Record

October 27th Fall Festival

FALL FESTIVAL

The Fall Festival is finally here! The children will get to dress up with their favorite costume and go around the school to enjoy different activities and collect lots of goodies. The administration will be sending an e-mail with all the information regarding this event. The Fall Festival will take place on October the 27th. We can't wait to celebrate and have fun!

We would like to invite the parents in a volunteer group and get involved to help coordinate and assist in classroom activities, decorations and special events this month. During October, we will be decorating the classroom door with the month's season, fall. Please sign-up with your teacher if you are interested. We are thrilled to be organizing these groups of volunteer parents to make our students have a more enjoyable learning experience.

Although parents' collaboration is not mandatory, we encourage your participation. Having children and parents working together, will enrich the learning environment and educational community in our schools.

EXTRACURRICULAR ACTIVITIES

It's no too late to register your child in extracurricular classes. If you are still interested and want your child to do a trial class, please let us know.

We see how much our students enjoy the diversity of our classes, and this is a great opportunity for reinforcing important and necessary values like: Team Work, Independence and Determination.
