September 2015

THEME OF THE MONTH

This month we will introduce the theme **“Buildings”**.

Buildings appear in different shapes, sizes and functions and for many reasons they have been adapted through the history. Reasons include the availability of materials, weather conditions, ground conditions, explicit uses and aesthetic factors. Buildings as a place of comfort and safety they correspond to the human habitat. Hence, they serve several needs of our communities such as to work and live, have security and privacy and as shelter from weather.

Without a doubt, young children are always fascinated with buildings, machines and construction sites. Our world is surrounded by those things and therefore this monthly exploration easily connects with real life situations and can be develop through hands-on and provocative activities!

We will learn about the English painter John Costable. Parents are welcome to share with us books or any activity that is related to the theme or country.

The country of the month will be Morocco and we are going to learn about the culture, traditional clothing, food, geography and much more.
